### **Second Announcement**

#### **Invitation**

On behalf of the IOBC-WPRS Working group "Integrated Plant Protection in Fruit Crops" Sub Group "Pome Fruit Diseases", you are cordially invited to the forthcoming **11<sup>th</sup> International IOBC-WPRS Workshop on Pome Fruit Diseases** that will take place from **26 to 30 June 2017 in Jūrmala, Latvia.**

The workshop takes place every 3 years and aims to bring together the latest advances in research of pome fruit diseases, to provide an opportunity for exchange of information and ideas and to stimulate common research and collaboration.

The workshop program includes oral and poster sessions, meeting with the industry and a one-day excursion.

#### **Proposed topics, relevant to integrated disease control in pome fruits**

Oral and poster presentations may include

- diagnostic tools in pome fruit pathology;
- biology and epidemiology of apple and pear diseases;
- host-plant resistance and biodiversity;
- bacterial diseases of apple and pear;
- canker diseases of apple and pear;
- brown spot of pear;
- monitoring and forecasting infection risks;
- control methods (biocontrol, chemical, alternative, physical, sanitation);
- postharvest diseases.

Special attention will be given to poster presentations in plenary discussions during the meeting.

Visit the website of the IOBC-WPRS: <http://www.iobc-wprs.org>

Prior to the 11<sup>th</sup> International IOBC-WPRS Workshop on Pome Fruit Diseases, a meeting will be organized by the **Lenticel rot group**, which is an open discussion group with the main goal to discuss the latest research results related to storage diseases. For details regarding the **Lenticel rot group meeting**, please contact **Michel Giraud**, e-mail: [Giraud@ctifl.fr](mailto:Giraud@ctifl.fr). The programme of that meeting will be available in the website of the 11<sup>th</sup> International IOBC-WPRS Workshop on Pome Fruit Diseases.

The official workshop website is <http://www.laapc.lv/workshop2017/>.
