

17<sup>th</sup> meeting of IOBC working group „Integrated Control in Oilseed Crops”  
Zagreb, 18 – 20 September 2018

## First announcement

Dear Colleagues,

We kindly invite you to participate in the 17<sup>th</sup> meeting of our Working Group on ‘Integrated Control in Oilseed Crops’ that will be held at the University of Zagreb, Faculty of Agriculture, Croatia 18 - 20 September 2018.

The scientific program will comprise talks presented in joint sessions as well as in two separate sessions focusing mainly on entomology and plant pathology. There will also be a joint poster session. We believe that the meeting in Zagreb will stimulate interesting and informative discussions about pests, pathogens and weeds that threaten oilseed crops, informing new management strategies and methods of control, with special focus on biocontrol, genetic resistance, agricultural practices, pest and disease forecasting and novel tools. At our meetings discussion is as important as the regular presentation of scientific results! The aim of the WG activity is to establish a platform for sharing ideas, enhance cooperation, collaboration and joint applications for research projects.

WG and SG Pathology Convenor	SG Entomology Convenor	Local organizer
<b>Malgorzata Jedryczka</b>	<b>Sam Cook</b>	<b>Ivan Juran</b>
Institute of Plant Genetics Polish Academy of Science, Poland	Department of Biointeractions and Crop Protection Rothamsted Research, UK	University of Zagreb Faculty of Agriculture, Croatia
